# Platinum Care 3D

**Platinum Care 3D** - another innovation of STS Textiles. Deep know-how of textile raw materials and the volition to develop new innovations made us create our highly modern product **Platinum Care 3D**.

The unique characteristics of the product **Platinum Care 3D** result out of the innovative Biopolymer Chitosan, an oceanic skin-care polymer from the cosmetic industry.

Chitosan is known for its cell-regulating, skin-protecting and anti-bacterial effect. The Chitosan in the **Platinum Care 3D** - fabrics stimulates the cell regulation, keeps the skin soft and elastic and finally results in a obvious fresher complexion.

Additionally our **Platinum Care 3D** articles do have a perfect integrated protection against microorganisms. Results proof:

- avoids high moisture loss of the skin
- has anti-bacterial effects
- is biodegradable
- fresher complexion: less microcarcs, cornification and wrinkles
- perfect integrated protection against microorganisms
